GULABI PARMESH ACHARI

Python Full-Stack AI Developmer

+919390576938 parameshachari10@gmail.com paramesh-ac gulabi-paramesh-achari-4a4277269 Tirupati, India

WORK EXPERIENCES

Python Full-Stack AI Development Intern | Internship — Jul 2026 - Present
Algonex IT Solutions — *Remote · Remote*

- Developed a full-stack career management platform integrating **modules**: Dashboard, Resume Analyzer, Job Search, AI Assistant, Interview Preparation, Courses, Application Tracking, and Privacy Settings.
- Built responsive frontend interfaces using **React.js, HTML, and CSS**, with reusable components and form validation for consistent user experiences.
- Implemented Python-based backend workflows and REST API integration for resume analysis, job search, and application status management.

Technologies / Skills Used : *Python, FastAPI, React.js, JavaScript, SQL, REST APIs, HTML, CSS*

PROJECTS

AI-Powered Resume Analyzer & Job Matcher
Developer

- Built an **AI-powered resume-matching tool** using Python, FastAPI, React.js, and PostgreSQL, achieving **85% faster candidate matching** and **80% improvement in candidate-job matching**.
- The tool parses PDF resumes, scores skills against job descriptions, identifies skill gaps, generates personalized recommendations and interview questions, and presents insights in an interactive dashboard.
- Integrated application tracking features to organize job applications across Applied, Interview, Offer, and Rejected statuses.

Technologies / Tools Used : *Python, FastAPI, React.js, PostgreSQL, LLMs*

AI Document Chatbot Using RAG
Developer

- Built a **document-based chatbot** using **Python, FastAPI, React.js, and LangChain** to answer questions about uploaded PDFs through RAG, processing **1 document**. Implemented document chunking, embedding generation, and semantic search, improving retrieval accuracy by **80%**.
- Integrated LLM-generated, source-cited answers and developed FastAPI endpoints and a React interface with conversation history and multi-document support.

Technologies / Tools Used : *Python, FastAPI, React.js, LangChain*

SKILLS

Databases :	PostgreSQL, MySQL, SQLite, MongoDB
Frameworks & Libraries :	FastAPI, Django, Flask, React.js, NumPy, Pandas, Scikit-learn, PyTorch, LangChain
Languages :	English, Telugu, Hindi
Programming Languages :	Python, Java, HTML5, CSS3, JavaScript
Soft Skills :	Teamwork, Communication, Leadership, Problem Solving, Critical Thinking
Tools & Platforms :	PostgreSQL, MySQL, SQLite, MongoDB, Git, GitHub, VS Code, PyCharm, Jupyter Notebook, Docker, Linux, AWS

EDUCATIONS

Sri Venkeswara College of Engineering | Tirupati, AP, India — 2020 - 2024
B.Tech in Electronics — *CGPA : 8.2/10*

Sri Swarnandhra Bharathi junior college | AP, India — 2020 - 2022
Intermediate (MPC) — *Percentage : 92%*

CERTIFICATIONS

- Generative AI from Algonex IT Solutions
- Python, DBMS, OOPs from Algonex IT Solutions
- MERN STACK Developer Program from EDU-VERSITY

EXTRA CURRICULAR ACTIVITIES

- Built number OF hands-on projects while developing skills in Python, AI, and Full Stack Development through self-directed learning.
- Practiced Data Structures and Algorithms to improve programming skills.
- Contributed to open-source projects at Algonex IT Solution and presented project contributions at the Algonex Hackathon.
